

Noopur Kumari Kashyap

Interaction Design Masters Student
IDC, School of Design,
IIT Bombay

I love to build castles in air with a belief to be a designer who can one day bring them to ground.

Internship / training experiences

- 2020** **Mentorship in Augmented reality under Pritam Pebam, Google Lens Design lead-** As the part of this internship, an AR visualization was designed that visualises the amount of rainwater that can be harvested at home.
- 2018** **Industrial training in Android Application development at Ikai Services-** As a part of this internship, I worked on the design and development of 3 applications(store, delivery and customer) as a part of 'All stores in your hands' project.
- 2017** **Web development course from CSDE Punjab University, Chandigarh**
- 2017** **Java technology training at Bebo Technical Education Services**
- 2016** **Summer Training in Infosys foundation program 4.0**

Academic Projects

- 2020** **Redesign Data visualization project** of The Hindu article on "where does your state ranks in Indian Innovation Index"
- 2020** **Forecast- Future prediction system of 2040.** This project was done as part of Design fiction course that speculates a future prediction system of 2040.
- 2020** **JCB simulation-** A Virtual reality JCB simulator with physical controllers.

Non Academic Projects

- 2020** **Energy day website-** Design and development of Energy day, IIT Bombay 2020 website
- 2020** **IDC Alumni Awards website** designed and developed under Prof. Anirudha Joshi

- 2018 **MonoVision earth control**- It detects and tracks human hands to allow control of a virtual Earth on a digital screen.
- 2016 **Logo Design of Magboard**, Literary club of UIET, Panjab University
